Hello World 👋

Hey!, I am Vaishali

Full-Stack Developer

I craft beautiful, functional digital experiences by bringing ideas to life. Specializing in modern web development and user-centered design.

About Me

I'm a passionate creative developer and designer with over **5 years of experience** building digital products that make a difference. I believe in the power of clean, efficient code and thoughtful design.

My expertise spans the full stack — from crafting pixel-perfect frontends to building robust, scalable backends. I love turning complex problems into simple, elegant solutions.

> *When I'm not coding, you'll find me exploring new design trends, contributing to open-source projects, or speaking at conferences.*

Clean Code
Writing efficient, maintainable solutions

Design Eye
Pixel-perfect, user-centered interfaces

Fast Delivery
Agile approach with rapid iteration

Experience

Senior Full-Stack Developer

2023 - Present

TechNova Solutions

Leading the development of enterprise SaaS platforms. Architecting scalable microservices and mentoring junior developers.

Frontend Developer

2021 - 2023

PixelCraft Studio

Built responsive web applications using React and TypeScript. Improved performance by 40% through code optimization and lazy loading.

Junior Developer

2020 - 2021

CodeBridge Inc.

Developed RESTful APIs and contributed to the company's design system. Collaborated with cross-functional teams on agile projects.

My Projects

A collection of projects I've worked on, ranging from web applications to mobile apps and everything in between.

Coming Soon

E-Commerce Platform

A modern e-commerce application with real-time inventory, payments, and admin dashboard.

React · Node.js · PostgreSQL

View Website · View Code

Coming Soon
